

EMI Shield window Reliability Test Condition

No. TT-12-3002B
Noritake Itron Corp.

		Test Conditions	Criteria
Function Durability Test	Temperature Cycling	<p>Conditions :</p>  <p>Cycle : 25cycles</p>	A
	High Temperature Storage	<p>Temperature : +85±2°C Duration : 96 hours</p>	A
Environmental Test	Humidity (steady state)	<p>Temperature : : 40±2°C Humidity : : 90~95%RH (No dewing) Duration : : 96hours</p>	A

CRITERIA

The sign of judgment	Contents of judgment
	<p>Transmittance fluctuation within -20% No corrosion of a terminal and crack , lack part.</p>

Notes1 ; Except an environmental temperature test when there is no specification it carries out at room temperature.
